

## Small advocacy Grant Opportunity to mitigate the impact of COVID-19 on Sexual reproductive Health and Rights among young people in Africa

---

### Introduction

[www.afnhi.org](http://www.afnhi.org) youth cohort is a membership platform for young people hosted under AfNHi membership. The platform hosts young people between the ages of 15 – 24 years, from east, central, west and South Africa. Countries currently represented: Angola, Benin, Burkina Faso, Cameroon, Cote d'Ivoire (Ivory Coast), Congo, Ghana, Kenya, Liberia, Malawi, Nigeria, Rwanda, South Africa, Tanzania, Uganda, Zambia and Zimbabwe.

Through a competitive application process, with over 650 applications, the first AfNHi youth cohort was formed, comprising of young African leaders below the age of 24 years across Africa. AfNHi youth cohort champions and advocates for Governments' investments in health and HIV research and development with focus of reducing new HIV infections among young people.

Following the creation of AfNHi Youth Cohort, an induction and training was conducted in Addis Ababa, Ethiopia. The training offered skills development including leadership, communication skills, information and advocacy skills, and HIV prevention research advocacy knowledge.

AfNHi Youth Cohort enabled a platform for dialogue on SRHR and COVID-19 among young people in Africa. Through partnerships with other Youth-led movements such as Ready4UHC, Youth4UHC, Global Network of Young People Living with HIV and HER Voice, running three successful Youth webinars on SRHR and COVID 19.
